**NEW SIZE ! 3x6 bevel**

**NEW SIZE ! 3x9 oval**

## Eco-Body - Certification of 42% recycled content

Eco-Body is a glazed ceramic tile product that meets not only the technical guidelines of **Presidential Order 13101** and the **EPA**, but the spirit of the order as well. Please check our website at [www.quarrytile.com](http://www.quarrytile.com) for the latest information on Eco-Body.

Eco-Body currently contains about 42% total recycled content as defined by the latest EPA Guidelines, **LEED 2.2** and **ISO 14021**. It is a combination of pre-consumer wastes collected and recycled from Quarry Tile Co manufacturing operations and pre-consumer solid wastes from the computer industry.

As part of Quarry Tile Co's total environmental program, Eco-Body also uses recycled waste water from other Quarry Tile Co tile manufacturing processes. All of the recycled waste products and clays are from within a 300 mile radius of our manufacturing plant in Spokane, WA. Therefore your project may earn additional LEED points for locally sourced materials if it is within the required distance.

Like all of Quarry Tile Co's products, Eco-Body meets or exceeds all of the requirements of **ANSI 137.1 section 6.3 for Glazed Quarry Tile**. It is available in **59 colors**, **13 field tile sizes** and all of the key trim shapes needed for floors and walls.

Quarry Tile Co., distributed by Daltile, 6328 East Utah Ave, Spokane, WA 99212
